APPLICANT: Kenji ANDO et al

TITLE: METHOD OF DESIGNING PAINT IN WHICH
PERFORMANCES ARE PREDICTED AND VERIFIED

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

PETITION TO ACCEPT COLOR DRAWINGS (37 CFR 1.84(a)(2))

Dear Sir:

This is a petition for the acceptance of color drawings under 37 CFR 1.84(a)(2).

Attached hereto are three (3) sets of color drawings of Figures 5 and 7.

The specification already includes the following language at page 5, lines 27-30:

"The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Office upon request and payment of the necessary fee."

The reasons for the need for color drawings in this application are as follows:

The invention disclosed in the application relates to a method of designing a paint and in particular to a method whereby a customer for an automobile or home appliance may design the paint to be applied to the article they are purchasing. The application includes colored drawing figures 5 and 7. Figure 5 shows an exemplary color screen where a customer may select a color between a shade region and a highlight region by use of a printing device such as a mouse. The gradations of color from red to purple and from highlighted to shaded cannot be shown with a black and white photocopy.

Figure 7 is a color diagram showing the comparison between the color that is targeted and the color which will be obtained. Again, there is no way to show the subtle variations with a black and white photocopy.

The petition fee in the amount of \$130 required to waive the requirements of §1.84 (37 CFR 1.17(i)) is enclosed herewith.

Should any additional fees be deemed necessary in connection with this petition, the Commissioner is authorized to charge our Deposit Account No. 12-0400.
